Future Life Group is the technology arm of LAPT LTD · Prepared 1 November 2026

WHO YOU WOULD BE BUYING FROM

We run it before we sell it

Future Life Technologies builds and runs business software. The platform in this brochure is the one Future Life Group's own network of 434 accredited centres across 17 countries runs on every working day — the same platform we install, brand and hand to other businesses. We are not selling you something we demo. We are selling you something we depend on.

THE WHOLE PLATFORM

Two ways to take all of it

For Schools & Colleges

Admissions, teaching, examinations, fees — under your own name

One platform for schools, colleges and universities: admissions, learning, proctored examinations, QR-verifiable certificates, fees and accounts — white-labelled under your own name by Future Life Group.

`lapt.uk/platform-for-institutions/`

For Businesses

Every conversation, lead, call and invoice in one place — under…

One platform for your whole business: official WhatsApp, cloud call centre, sales CRM, proposals with e-signature, invoicing and real books — white-labelled under your own name by Future Life Group. From ₹999 per user per month.

`lapt.uk/platform-for-business/`

BUY ONE, OR BUY ALL OF THEM

The products

Each is sold on its own and replaces something you already pay for.

About us

Built by a company that had to ring people for a living.

About Future Life Group — who builds the calling platform and why.

`lapt.uk/call-about/`

About Us

About Future Life Group

Future Life Group is a technology company built on 25 years of experience through LAPT Ltd UK, developing B2B SaaS and technology solutions for businesses and industries worldwide.

`lapt.uk/about/`

All features

Every feature, and whether it works today

The full feature list for Rest restaurant software — billing, kitchen screen, menu, stock, online orders, guests, reports, outlets, staff, tax and hardware — marked working or in build.

`lapt.uk/rest-features/`

All Industries

We build for industries, not for everybody

Industry software from Future Life Group: education, hospitality, beauty, IT and agencies, real estate and healthcare — built on one platform, installed under your own name.

`lapt.uk/industries/`

Beauty & Wellness

Appointments, packages and stylists — without three apps

Beauty & Wellness software from Future Life Group: appointments, packages & memberships, stylist commission, stock — on a platform that already handles WhatsApp, calls, invoicing and accoun…

`lapt.uk/it-agency-software/`

More than one

Every restaurant on one screen

Run several restaurants: takings side by side, one tap into any of them, one login.

`lapt.uk/rest-owners/`

AI Content Studio

A year of course writing, done in weeks

AI writes course outlines, lesson text, images, slide decks and quizzes, with narrated video rendering and a production board tracking coverage — in any language.

`lapt.uk/offer-ai-content-studio/`

Certificates & QR

A certificate an employer can check in five seconds

Issue printed-quality certificates, diplomas, marksheets and cards on your own artwork, each with a QR code verifiable on a public page — plus tracked physical despatch.

`lapt.uk/offer-certificates-qr/`

Cloud Call Centre

A phone system that brings four other systems with it

Cloud call centre with recording, AI transcription and summaries, inbound queues, round-robin routing and TRAI calling rules — for less per agent than a phone system on its own costs elsewh…

`lapt.uk/offer-cloud-call-centre/`

Exams & Proctoring

Examinations you can defend — written from your own material

Online examinations with AI paper generation from your own material, timed and shuffled delivery, webcam proctoring, locked screen, AI marking with plagiarism flags and human review before …

`lapt.uk/offer-exams-proctoring/`

Invoicing & Accounts

Invoices that chase themselves, into books that always bala…

Invoicing with country-based tax, automatic payment reminders and a real double-entry ledger — live P&L and balance sheet consolidating several companies.

`lapt.uk/offer-invoicing-accounts/`

Lead & Sales CRM

Every lead with a name against it and a date to chase

Sales CRM with Meta lead-ad webhooks, website form capture, engagement ranking, owner and follow-up date on every lead, and full campaign attribution.

`lapt.uk/offer-sales-crm/`

Learning Platform

Teach on a system built the way a qualification actually wo…

Learning platform structured as subject, chapter and class, with guided hours, grade bands, weighted assessment and content reused across qualifications.

`lapt.uk/offer-learning-platform/`

Marketing & Attribution

Know which advert produced the customer, not just the click

Campaign tracking, triggered journeys, per-message email delivery and open tracking, link and QR builders — with every enquiry attributed to the advert that produced it.

`lapt.uk/offer-marketing-attribution/`

Mobile Apps

Your own app on the Play Store and the App Store — without …

Android and iOS apps built on the Future Life Group platform — your brand on the store, one codebase for both, with the backend, logins and payments already built.

`lapt.uk/offer-mobile-apps/`

Payroll & People

Salary runs, payslips and letters — in the same system as t…

Payroll with salary structures, statutory deductions, monthly runs, payslips and appointment letters, with employee and bank records held in one place.

`lapt.uk/offer-payroll-people/`

Proposals & e-Signature

Send a priced offer they can sign on their phone

Branded proposals with live totals in six currencies, secure client link, online signature, KYC upload, view tracking and automatic invoicing on signature.

`lapt.uk/offer-proposals-esign/`

Technology Advisory

An honest second opinion, including when the answer is 'do not …

Technology advisory: architecture review, build-versus-buy, vendor assessment, security and data review, and a costed roadmap — from a team that also builds.

`lapt.uk/technology-advisory/`

NO SURPRISES LATER

What it costs

Priced per user, the way you already buy software — except one licence here replaces the WhatsApp tool, the phone system, the CRM, the signing service and the billing package. Compare it against the sum of those bills, not against any one of them.

PLAN	PRICE	WHAT IT COVERS
Starter	**₹999 /user/month**	Official WhatsApp shared inbox and the Lead & Sales CRM. Everything to catch an enquiry, own it and chase it. Minimum five users.
Growth	**₹2,499 /user/month**	Adds the Cloud Call Centre, Proposals & e-Signature and Marketing & Attribution — less per person than a phone system alone costs elsewhere, with four more systems in it.
Complete	**₹3,999 /user/month**	All twelve products, including invoicing and real double-entry books, the learning platform, examinations, certificates and payroll.
Own Cloud	**₹6,00,000 /year**	The complete platform in your own cloud account or on your own servers, with unlimited users, your own domain and certificates, and priority support.

- Per user per month, billed annually, excluding GST. Minimum five users. Monthly billing is available at 20% more.
- Your data is yours alone — kept apart from every other customer and never visible to them. Own Cloud adds your own installation and your own database, on your own domain.
- WhatsApp, telephony, domains, hosting and storage are billed at our published rates, metered per account, and you see the estimate before every campaign — one bill for everything instead of five suppliers to chase.
- Own Cloud becomes the cheaper option at 50 users on Starter, 20 on Growth and 13 on Complete — we will tell you when you cross that line rather than wait for you to notice.
- A written quote against your own numbers, and a walkthrough on the live system, before you commit to anything.

Talk to us

Tell us what you run today and where it hurts. A person reads it and replies — normally the same working day. A first conversation costs nothing, and nothing is installed to see the system running.
